Ashwamedh Bahod

Full-stack Developer (MERN) | UI Designer | Python programmer -
Helping other to bring their dreams to reality...

411006

Summary

Starting from a single idea and bringing it to reality, it is what a job of a developer is. I am proud to say that I was able to bring many of such ideas into practical web and native applications by leveraging different web and native frameworks. I have a contribution in 20+ websites, webapps and native apps. The skills like UI designing and Ethical Hacking help me to give upper hand to my development work by making it attractive and secure at the same time. Working with like-minded people who are as passionate as me about web is the definition of perfect world for me.

Experience

Tata Consultancy Services
Developer, Production AMS
February 2021 - Present (1 year 4 months)
India

Education

Annasaheb Dange College of Engineering and Technology, ASHTA
